

Our annual installation targets for the rollout of smart meters for 2022 are:

Utility – Gas or Electric	Reporting Period Start	Reporting Period End	Total Relevant Premises - Non Domestic	Number of Qualifying Relevant Premises	Calculated Planned Annual Target
Gas	01/01/2022	31/01/2022	59324	12527	0*
Electric	01/01/2022	31/01/2022	1319	1111	197

From January 2022, suppliers must comply with a new regulatory framework for the rollout of smart meters as defined by Department for Business, Energy and Industrial Strategy [BEIS] which includes publishing our targets and performance for each rollout year

* Calculated Planned Annual Target [Gas] our target for 2022 has already been achieved due to the installation of Qualifying Metering Systems prior to January 2022.
