

Our annual installation targets for the rollout of smart meters 2023

From January 2022, suppliers must comply with a regulatory framework for the rollout of smart meters as defined by Department for Business, Energy and Industrial Strategy [BEIS] which includes publishing our targets and performance for each rollout year.

2023 - Targets

Utility – Gas or Electric	Reporting Period Start	Reporting Period End	Calculated Planned Annual Target for Second Rollout Year (2023)
Gas	01/01/2023	31/12/2023	0 *
Electric	01/01/2023	31/12/2023	51

* Calculated Planned Annual Target [Gas] our target for 2023 has already been achieved due to the installation of Qualifying Metering Systems.
